

PROJECTS

Owner: Department of the Navy /
U.S. Marine Corps

Location: Norfolk, Virginia /
Camp Lejeune, North Carolina

Project: P-525 Navy Hangar /
P-651 New River Air Station Hangar

Construction: Began in 2003 / 2009

In Service: 2004 / 2010

Total Value: \$2.6 million / \$10 million

In 2004, we completed the fabrication and erection of a prismatic truss hangar, utilizing large-sized steel pipe, for the Department of the Navy in Norfolk, Virginia. The project included more than 1.7 million pounds of structural steel. In 2009, we were hired to fabricate and erect another hangar with a similar design for the Marine Corps at New River Air Station near Camp Lejeune in North Carolina. This new hangar is approximately twice the size of the Navy hangar and utilizes bolted flange connections. The job completed in early 2010 and included more than 3.6 million pounds of structural steel.
